

HOUSE OF SWEDEN

Invitation

INNOVATION & TECHNOLOGY

Sweden's Incubators and High-Tech Startups

13-14 March 2008

You are cordially invited to a two-day program featuring the best-in-class IT, Telecommunications and Life Science companies from Sweden's leading incubators. You will learn about the strategic and competitive advantages that US companies have gained from partnering and investing with Swedish companies and venture capitalists.

Some 30 companies and VCs from Sweden will attend. US investors are invited both days, but will find the 13 March program most relevant.

Since 2003, Swedish incubators have brought 800 companies into commercial operation with over 50% now profitable.

Access

- Leading edge startups in wireless, IT, electronics and software technologies
- Leading edge life science startups in drug discovery, biopharmaceutical, and medical device technologies
- Leading Swedish VC and corporate venture investors
- Representatives from Sweden's "innovation ecosystem"

For more information click http://www.isa.se/templates/Normal_63248.aspx, or to register for the event, contact Amir Mortazavi at usa@isa.se or 1-212-702-8780 x 10.

Please note that the Swedish Trade Council will host a medical technology matchmaking event on 12 March 2008 at the same location. For more information, please contact leah.guzowski@swedishtrade.se
