

Dear Client,
 whether you are a potential investor or an investor already established in Sweden, it is our business to provide you with specialist and professional assistance. We will do our utmost to answer your questions, facilitate your decisions, or present business and investment opportunities in Sweden.

Since 1995, Invest in Sweden Agency and its regional partners have contributed to a large number of investments in Sweden. Examples include new investments, expansions, venture capital funding, joint ventures and strategic alliances in key areas such as R&D, business services and core industrial sectors.

Kai Hammerich, Director-General ISA

Welcome to Invest in Sweden

Business and investment facilitator

Invest in Sweden Agency (ISA) seeks to facilitate your investment in Sweden and deliver professional services to foreign investors. The vast majority of ISA staff has a background in the corporate sector and expertise in the investment process. These attributes help ensure professional guidance for successful business launches in Sweden.

In a 2005 study, ISA was ranked the world's leading national inward promotion agency. The study, carried out by MIGA, a division of the World Bank, and GDP Global Development assessed 178 different agencies.

Stockholm headquarters

ISA offerings

Investment opportunities

ISA provides services when you are interested in investment objects such as setting up a sales office, R&D center, buying a company, investing in a fund or a portfolio company, establishing a logistics unit or investing in real estate. Services include specific suggestions, such as available locations and target companies.

Decision support

ISA offers comprehensive information to support your investment decision. Information can be general as well as industry specific and include publications, news, slide presentations, fact sheets, cluster maps and case studies. ISA also customizes information for your specific areas of interest.

Establishment services

ISA can supply you with practical advice on how to proceed when establishing a business in Sweden and with introductions to relevant contacts with Swedish authorities, utility providers, and professional service companies.

Services provided are free of charge.

Invest in Sweden

ISA is the central point of contact when looking for new business in the Baltic Sea region/Northern Europe. The region is strongly expanding, both with regard to GDP and consumer purchasing power. Today, Sweden attracts almost 50 percent of total foreign direct investment (FDI) in the region.

Starting a new business in Sweden is easy and business procedures are simple and transparent. Living and working in Sweden means being part of an open society in a truly dynamic and international environment. Hard facts about soft values speak for doing business in Sweden.

Whatever your business focus, Sweden serves as your natural base in the Baltic Sea region/Northern Europe.
